PAYNE CAN ONLY RESIGN

When It Becomes a Question of Life or Death With Him.

Washington, June 26.—The last meeting of the cabinet before the president departs from Washington tomorrow was held today. Postmaster General Payne was among the first to reach the cabinet room in the executive building. Shortly after the members had assembled, former Postmaster General Smith, who took breakfast with the president this morning, appeared at the executive building and was ushered into the cabinet room.

Washington, June 26.—Upon leaving the White House, Mr. Smith, when asked if he had anything to say concerning the postoffice inquiry, replied that his statement in response to the references to himself in the Bristol report would be given to the public tomorrow morning.

The cabinet meeting was devoted chiefly to the clearing up of routine departmental matters in anticipation of the president's departure, although Postmaster General Payne occupied

considerable time, not only in presenting the current situation as developed by the investigation now in progress, in the postoffice department, but in discussing his future plans relative to the investigation.

In this connection, it can be stated authoritatively, that the reports that Postmaster General Payne contemplates retiring from the cabinet are untrue. It is well known that his health is not good, and there is of course, a possibility that he might suffer a complete break-down, or that he might be forced by the imperative orders of his physicians to give up his work. But at this time, the idea of retirement is not entertained by him. He has planned out his future work in connection with the investigation of his department, and is anxious to finish it. The president it is said, has given expression to his own feelings in the matter by saying that he would permit him to resign only in the event that it became a matter of life or death.

EDWARD'S

Birthday Was Celebrated With Imposing Pomp.

Many Noted Americans Hobnobbed With Royalty and the Khedive of Egypt.

London, June 26.—King Edward's birthday was officially celebrated today in London, and at all the home naval and military stations. All the government buildings were decorated with flags, salutes were fired, the warships at all the ports dressed ships, and the troops were reviewed. The main function was the trooping of the colors on the Horse Guards' parade here, which the King attended on horseback. This was the first time he has ridden since his last illness. The parade ground presented a highly picturesque scene. Queen Alexandra, the Princess of Wales, the Duchess of Albany, the Duke and Duchess of Fife, the Duchess of Connaught, Princess Henry, of Battenberg and children, and the Khedive of Egypt occupied seats in the central window of the Horse Guard's building, while all the other vantage points were occupied by stately dressed women, cabinet ministers, members of the house of Lords, and house of commons, and others. Many Americans were present including the staff of the United States embassy and the American rifle team, who were under the guidance of Major General Lord Chylesmore.

The King who wore the uniform of colonel of the Grenadier Guards, rode on to the ground, surrounded by a brilliant staff, and an unusually large gathering of foreign military attaches. As the King halted at the saluting base, the massed bands played the national anthem. After an inspection of the troops, the ceremony of trooping the colors, was carried out. Their Majesties returned to Buckingham palace, heartily cheered by the crowds along the route.

Not Killed, Were Words Used Today by Secretary Chamberlain at Meeting of Constitutional Club in His Honor.

London, June 26.—The constitutional club today entertained Colonial Secretary Chamberlain, at luncheon, and presented him with an address enclosed in a basket in recognition of his services to the nation. Premier Balfour made the presentation speech. Referring to Mr. Chamberlain's fiscal proposals, he said, it would be absolutely folly for the conservative unionist party to make opinions on economic questions a test of party loyalty. The present economic position of the country demanded the most careful consideration. Mr. Chamberlain received a remarkable ovation when he rose to reply. His hosts sang "For He's a Jolly Good Fellow" and then cheered Mrs. Chamberlain. The colonial secretary opened his remarks with repudiating the suggestions of personal competition between himself and Mr. Balfour, remarking that he could not conceive any occurrence that could shake the political association and friendship existing between them. He desired on the eve of a great controversy to publicly state that he believed the leadership of Mr. Balfour was essential to the success of the unionist party. If the unionist alliance was dissolved, or weakened, the "home rule snake, which was only scotched and not killed" would again come to the front.

The great undertaking is to be finally completed within the next five years. The governor, the United States senators, members of congress, state and city officials, municipal officers, the supreme judges, the clergy, leading business men and the various committees which have been identified with the sewerage movement, occupied seats in the platform. A special guest of honor was former secretary of the treasury Charles S. Fairchild. The movement which culminated in the final breaking of ground today followed the epidemic of fever in 1899. Though the disease was mild and mortality comparatively insignificant, immense business losses were suffered through the institution of prohibitive quarantines and a great public demand was aroused for radical sanitary reforms. The property holders promptly voted the required tax, necessary legislative action was secured and constitutional authority for the issue of bonds. Unavoidable delays, however, postponed the actual commencement of the work until yesterday.

MALARIA

Germ Infected Air.

Malaria is not confined exclusively to the swamps and marshy regions of the country, but wherever there is bad air this insidious foe to health is found. Poisonous vapors and gases from sewers, and the musty air of damp cellars are laden with the germs of this miserable disease, which are breathed into the lungs and taken up by the blood and transmitted to every part of the body. Then you begin to feel out of sorts without ever suspecting the cause. No energy or appetite, dull headaches, sleepy and tired and completely lagged out from the slightest exertion, are some of the deplorable effects of this enfeebling malady. As the disease progresses and the blood becomes more deeply poisoned, boils and abscesses and dark or yellow spots appear upon the skin. When the poison is left to ferment and the microbes and germs to multiply in the blood, liver and kidney troubles and other serious complications arise. As Malaria begins and develops in the blood, the treatment to be effective must begin there too. S. S. S. destroys the germs and poisons and purifies the polluted blood, and under its tonic effect the debilitated constitution rapidly recuperates and the system is soon clear of all signs of this depressing disease.

MR. BRYCE IS RIGHT.

Mr. Bryce is right in his statement
that one of the greatest causes of
American prosperity has been the ab-
solute free trade between our states
and territories. We have an area
greater than all Europe, and natural
resources as great and diverse as Eu-
rope, but while European commerce
has been hampered by tariffs and
taxes at boundary lines, our domestic
trade has been free. This fact, com-
bined with the fertility of our soil and
the opportunity for settlement, gives
the explanation of our national ad-
vance despite the burdens of tariffs
and trusts. But we are reaching the
point when foreign trade is now essen-
tial to our welfare, and wise men of
all parties see the necessity of seek-
ing it. Though they disagree to some
extent as to methods, they all see the
obstacle of the tariff wall—Indianapolis Sentinel.

Night's Riot Sent Up
for Year.

Wilmington, Del., June 26.—As a re-
sult of last night's riot, William Cram-
er, a negro, who was shot during the
disturbance in the negro district,
known as the "Coast", died today.
There were considerable disorder in
the district and the rioting reached its

leged to have shot Cramer. If there
is any further rioting tonight, the
authorities say the military will be
called. All is quiet this morning.

Moore and Joseph Shockey, the

CABINET

Known as Regicides Before
Recognition Comes.

Belgrade, June 26.—The German
Emperor has sent King Peter a tele-
gram in very cordial terms.

The Austrian minister today resum-
ed official relations with the Serbian
government.

Peter Says They Remain.

Belgrade, June 26.—Foreign Minis-
ter Kalievich has sent a circular to
the Serbian representatives abroad
explaining that King Peter reappointed
the cabinet because he considered
that he could not do better than en-
trust the government to the men in
whom parliament had a few days ago
expressed its full confidence. One of
the first tasks of the ministry will be
to hold new election and the King
would then be able to elect a second
cabinet from the predominant politi-
cal party.

Will Not Recognize Cabinet.

Belgrade, June 26.—King Peter held

a reception this morning. Only two
foreign diplomats, the Russian and the
Austrian ministers, attended. The
representatives of the three or four
other countries apparently were will-
ing to recognize King Peter but not
the Serbian cabinet in which Colonel
Machals, one of the chief conspirators,
holds a portfolio. The King's reap-
pointment of the ministry yesterday
afternoon is regarded as equivalent as
a notification that no punishment will
be meted out to the assassins of King
Alexander and Queen Draga.

SUB-STATION

Will Open in Crumrine Block August 1.

South Lima Residents to Have Better Delivery—Two New Clerks Appointed.

The application of Postmaster Hall for a sub-station of the local post-office, to be located in south Lima, has finally run the gauntlet of red tape, at Washington, and that portion of the city will soon have a distributing post-office of its own, and of course, better service.

The following letter from the post-office department, at Washington gives the details:

Office First Assistant P. M. General Washington, D. C., June 23 1903. Postmaster, Lima, Ohio.

Sir:—In reply to your letter of the 9th instant, I beg to state that the proposition made by Leonard Crumrine, to lease a room for branch postoffice at \$350 per annum, to include equipment, heat, light, fire and burglar proof safe, etc., is accepted for a term of ten years from date of occupancy, subject to the provisions and requirements of the form of lease used by the department.

Please notify Mr. Crumrine and report by return mail, the date the premises can be ready for occupancy, so that an order may be issued establishing south Lima station, and discontinuing station No. 1.

Very Respectfully,
R. J. WYNNE,

First Assistant P. M. General.

Mr. Holland, assistant postmaster, stated to a Times-Democrat representative this morning, that Mr. Crumrine would have the room in the Crumrine block, just south of Kibby street, ready for occupancy by August 1st, and that the sub-station would open on that date.

The service there will be administered by four carriers and two clerks, all of whom will be transferred from the main office.

On July 1st, two new clerks will be installed, allowance for maintenance having been granted by the department. The lucky gentlemen who will drop into these positions, under the sheltering arm of civil service are Mr. Harold French, and Elias Darling, both south Lima residents.

Their official designations, will be

stampers. Station No. 1 which will be discontinued is located in Cramer's drug store, corner of Main and Kibby streets.

Wanted—One hundred ladies with pimples, blackheads, nasty complexions, to take Rocky Mountain Tea, and have a beautiful face, bright eyes, sweet breath.

DEFENDANTS

In Chicken Case Were Dismissed.

Riley Point Pleads Not Guilty to Stealing Shoes.

Second Street Neighborhood Quarrel Taken Up for an Airing in Mayor's Court This Afternoon.

The cases in mayor's court against Earl Morehead and Joseph Miller, who were arrested on the charge of having stolen nine chickens belonging to Andy Westby, were tried before Judge Robb yesterday afternoon, and the hearings resulted in the dismissal of both cases. Morehead and Miller were discharged, but other arrests in the same case may be made later.

Riley Point, charged with stealing a pair of shoes from Louie Brunburg's shop, in Sugar alley, pleaded not guilty, and his case will be given a hearing tomorrow morning at nine o'clock.

There were three cases taken up for hearing before the mayor this afternoon. The first was one in which Sam Jones, of Solerville, was charged with assault and battery, the complainant being Clara Pierce. The other two cases are those resulting from the Rush-Bowers protracted neighborhood quarrel, on Second street.

CHERRIES AT WATSON'S.

HYPNOTISM

Used Successfully in Amputating a Limb.

A very recent issue of the Daily Express of London, relates what it describes as the first instance in England of hypnotic suggestion taking the place of an anaesthetic in a serious surgical operation. A woman, thirty-eight years old was suffering from a severely ulcerated leg, and it was decided that her life could be saved only by the amputation of the limb.

She desired to be hypnotized for the operation, dreading the use of chloroform which, it was believed, would have been dangerous in her case. Dr. Aldrich, of Clapham, a suburb of London, hypnotized her experimentally on several successive days, the hypnotic trance lasted about half an hour on each occasion.

All the tests applied proved satisfactory, and on Wednesday Dr. Aldrich operated upon her in the presence of two other surgeons and a nurse. All the doctors were somewhat doubtful of success and had provided chloroform in case of emergency.

The operation began at 4:50 o'clock in the afternoon. While it was in progress the patient chatted with the nurse and drank wine. To an ordinary observer she would have appeared to have been conscious the whole time. Nevertheless, the operation was painless, and she was unaware of what was passing.

While operating, Dr. Aldrich said: "I am cutting off your leg below the knee." The patient laughed and said: "All right, hold my hand." One of the surgeons took hold of her hand, and when the nerves were severed the patient gripped the doctor's hand hard.

The operation was completed at 5:10. The patient was awakened at 5:15, whereupon she said: "I have pins and needles." There were no symptoms of shock. Her pulse and temperature are normal, her spirits are high and she eats well.

Evidence is ample to prove that the most beautiful women in the world are Americans; 90 per cent. owe their beauty to the use of Rocky Mountain Tea.

HAPPY

And Felicitous Were the Greetings Passed Between Emperor William and American Officers.

William Goes All Over the Kearsarge and Expressed Admiration for Ship and Intelligence of the Men in Charge.

Kiel, June 25.—"I shall telegraph to the president, sir, telling him in what perfect condition I have found your ship," said Emperor William in parting with Rear Admiral Cotton and Capt. Hemphill, on board the American flagship Kearsarge after he had spent an hour and a half looking over the battleship, as thoroughly as any naval inspector could have done, working the turrets, examining the quarters of the men, looking at the food in the galley and talking familiarly with some of the able seamen.

The Emperor came along side the starboard quarter of the Kearsarge, steering his own barge and attended by Capt. Von Grumme, while up the port gang way came Admiral Secretary Von Tripitz, Admiral Von Senden-Buacan, chief of the Imperial Naval Cabinet, General Von Plessen and Count Von Eulenburg. Admiral Cotton and his staff Captain Hemphill, all the other American commanders and all the officers of the ship, except the midshipmen, who were at quarters, received the Emperor on the quarter deck.

"I am happy to welcome your Majesty on an American ship," said Admiral Cotton, "and wish that I were receiving on American soil."

"I am very happy to be here," the Emperor replied. He then shook hands with all the captains whom he met yesterday, calling them by name and with all the juniors, who were presented in turn.

"Now captain," the Emperor said to Captain Hemphill, "I want to see your ship."

Captain Hemphill thereupon led the way with the Emperor, Admiral Cotton following with Secretary Von Tripitz, the other American captains accompanying the members of his Majesty's suite.

Emperor William entered one of the double turrets and scrutinized the mechanism. Lieutenant Mustin, of the Kearsarge showed the Emperor the turret and smoothness with which the turret could be turned.

"What is the real value of these turrets?" asked the Emperor turning to Captain Hemphill.

"That could only be known in war, sir," replied the captain, while he explained the theoretical effectiveness of the gunfire on which the design was

based. The Emperor reached some of the recent French experiments with double turrets in which ships in one turret were killed by the shock of the gun fire in the other.

"That," said the captain, "was due to the shortness of the guns which the French experimented with. The long guns of the Kearsarge change the fold of the highest concentration."

Captain Hemphill's reply and lucid explanations caused his Majesty to say later, to an American visitor on the Hohenzollern that the captain was a man who knew his business.

In calling the attention of one of the members of his suite to Captain Hemphill's service on the monitor when she first went into action and to some other naval combats of the civil war, the Emperor added:

"Those men are Gods to us." His Majesty also said the conning tower was the most roomy he had ever been in. With the telephonic and signal apparatus in every part of the ship, the Emperor was, naturally familiar, and he pointed out one or two good new things. The German constructors have been having some trouble with electric connections and the Emperor was especially interested in them. At present the Kearsarge's general electrical system is invisible, as it is enclosed in semi-permanent constructions.

INTEREST

In Humane Society Has Revived.

A Meeting Will Take Place Tonight to Transact Important Business.

During the past few weeks, the membership of the Humane Society has increased to several times the number who began with the present year, and the interest has revived accordingly. Officer Felder has been particularly active in the work required of him, and few people are aware of the suffering relieved through the administration of the society. The last report made by the humane officer gave some idea of what a little law will do in keeping children and animals from being ill treated by cruel parents, guardians, or owners.

The society will hold a meeting tonight in the board of education room, to transact some important business, and all members, or others who are interested, are earnestly requested to be present.

SCIENCE SCORES AGAIN.

A Preparation That Will Destroy the Dandruff Germ Discovered.

Finally the scientific study has discovered a certain remedy for dandruff. When it first became known that dandruff is the result of a germ or parasite that digs into the scalp, and saps the vitality of hair at the root, causing falling hair and baldness, biologists set to work to discover some preparation that will kill the germ. After a year's labor in one laboratory, the dandruff germ destroyer was discovered; and it is now embodied in Newbro's Herpicide, which besides curing baldness, and thinning hair, speedily and permanently eradicates dandruff. "Destroy the cause you remove the effect." Send 10 cents in stamps for sample. The Herpicide Co., Detroit, Mich. For sale by Wm. M. Melville, druggist.

JOE

Was Too Anxious to Work

And an Engine

Was the Factor That Stopped Him.

An Italian Section Workmen Injured in the C. & E. Yards.

Unfortunate Man Removed to the City Hospital—Is Believed to Have Sustained Internal Injuries.

Joseph Buccell, an Italian laborer employed on the C. & E., as a section workman, was painfully and perhaps seriously injured this morning by being knocked off of the main track by an engine. The accident occurred at 8:21 o'clock, when train No. 22, east bound, was passing out through the yards east of the passenger depot. Buccell was at work, with other section men, on the main track, just east of the C. H. & D. crossing, and, as the train approached, his companions stepped aside, when the engine became alarmed and sounded the whistle. In another instant, the pilot of the engine hit Joe and he was hurled some distance to one side of the track. Fortunately he cleared the rails, and escaped the wheels, but he was badly bruised about the shoulders and hips, and it is thought that he sustained some internal injuries.

The injured man was removed to the city hospital in Jones and Williams ambulance, and was reported to be resting well this afternoon.
